

Rely On FedRooms® for the Greatest Savings and Benefits on Your Hotel Stays

FedRooms® is the way to go for work and leisure travel.

FedRooms® is Your Hotel Program!

The federal government (including the Department of Defense) spends more than \$2 billion on hotels every year. The solution for federal government hotel needs is FedRooms® — the official governmentwide, government-sponsored lodging program. FedRooms® rates are negotiated specifically for federal government travelers. In fact, FedRooms® leverages overall buying power to negotiate the very best hotel rates — in markets where government travelers need to stay — on behalf of the federal government. Best of all, the program is available for all federal and military employees.

FedRooms® is Even Better Than a Government Rate!

Note that the FedRooms® rate and the “government” rate are not one and the same. “Government” rates are unmanaged, and are determined by each hotel. As a result, 15 percent of “government” rates are actually over per diem. Plus, hotel rooms reserved under just a “government” rate may have hidden fees and cancellation policies that add up to a bigger bill at checkout.

With FedRooms® just the opposite is true. To be accepted into and participate in the FedRooms® program, hotels MUST agree to the program terms and conditions, and FedRooms® will assist in holding hotels accountable.

Federal government employees can always use the FedRooms® rate when on official travel — and also when on leisure travel.* The FedRooms® program is available for use by individual federal travelers, or for small groups and meetings of up to 25 people.* The FedRooms® rate can even be used by government contractors and state employees, when on official travel.*
